Dear friends.

With a big heart, I urge you to join the humanitarian campaign and help the people in Slovenia who were affected by the floods. Slovenia was hit by catastrophic flooding. More info can be found in this article: <https://sloveniatimes.com/damage-after-apocalyptic-flooding-to-pass-e500-million/>.

The Federation of Rotary Clubs Slovenia – D1912 decided to join forces and raise funds for those who lost their homes, property and loved ones in the floods.

Every donation you make will directly help affected people and contribute to rebuilding their lives. Any contribution, regardless of size, is welcome and important. Together we can make a difference and show how strong our community is when we stand together in difficult times.

The money we will collect will be used for basic needs such as food, water, clothing, medical care and help in rebuilding homes and infrastructure. Every contribution will help restore hope and a future for affected families.

How can you help:
